REFERENCES

Already worked on **over 10 apps, 35 web applications**, did a lot of Docker stuff, ...

MOBILE & WEB APPS

01

Own Compiler & Runtime for **coding in platform independent binary** with futuristic libraries such as Quantum computing & Blockchain.

ALMOSTBINARY

02

Founded & led a startup building a platform for **monetarizing Corporate-Social-Responsibility** (e.g. environment protection, health, solidarity).

SOCIAL-TECH STARTUP

03

Managed & Extended a **LoRaWAN infrastructure** for several IoT sensors with Docker Swarm. Moreover, I designed, built & implemented a modular Smart-Home concept with an own Home-Assistant, Smart-Mirror ... to **make even „old“ devices smart** subsequently.

SMART CITY & HOUSE

04

Blockchain App: Settle our invoices in Ethereum, earn WACT-Tokens and redeem them in future projects to save money. Check out our **blockchain based voucher** on token.wavect.io

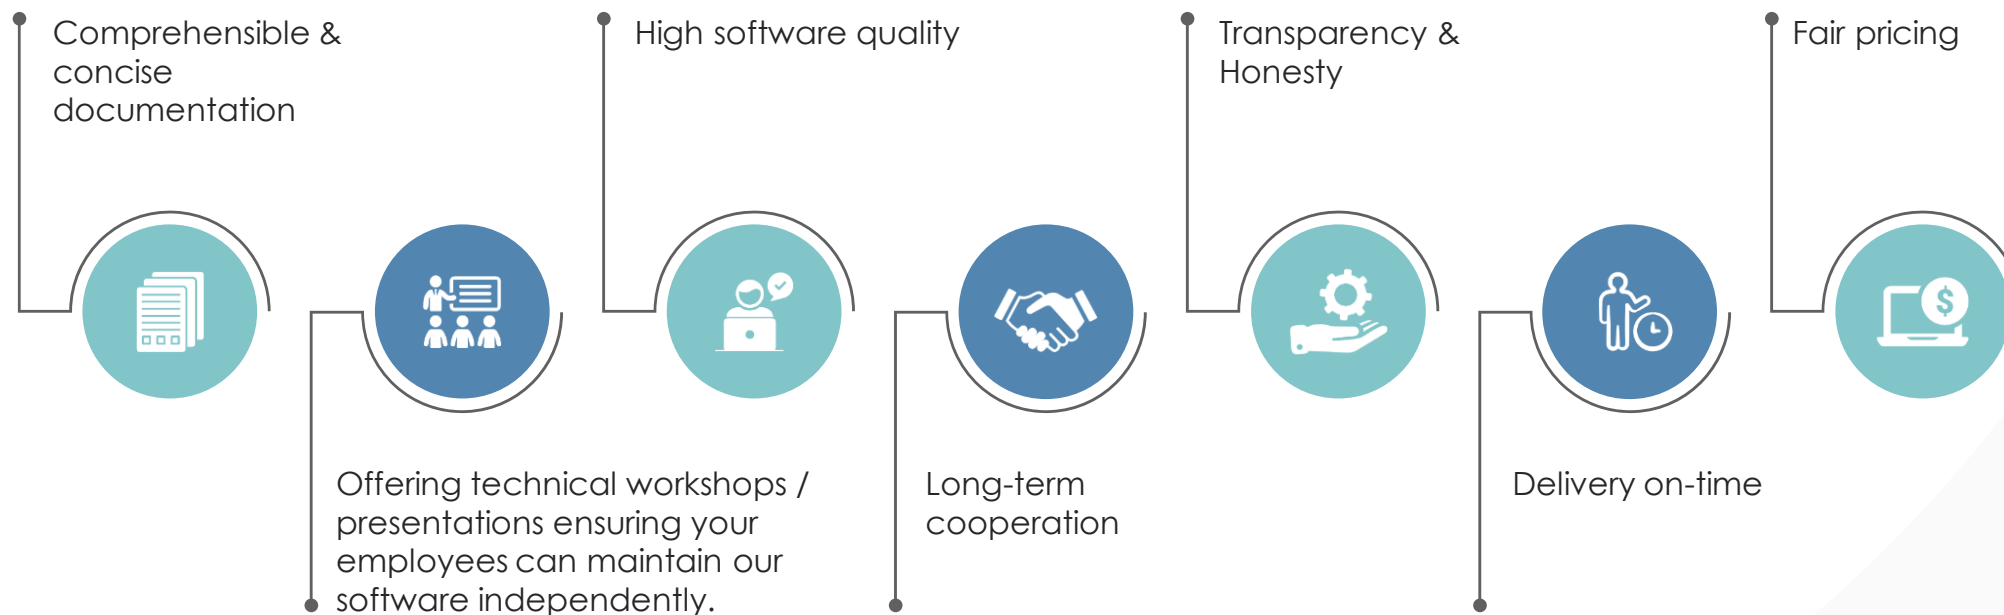

WAVECTOKEN

05

OUR CORNERSTONES

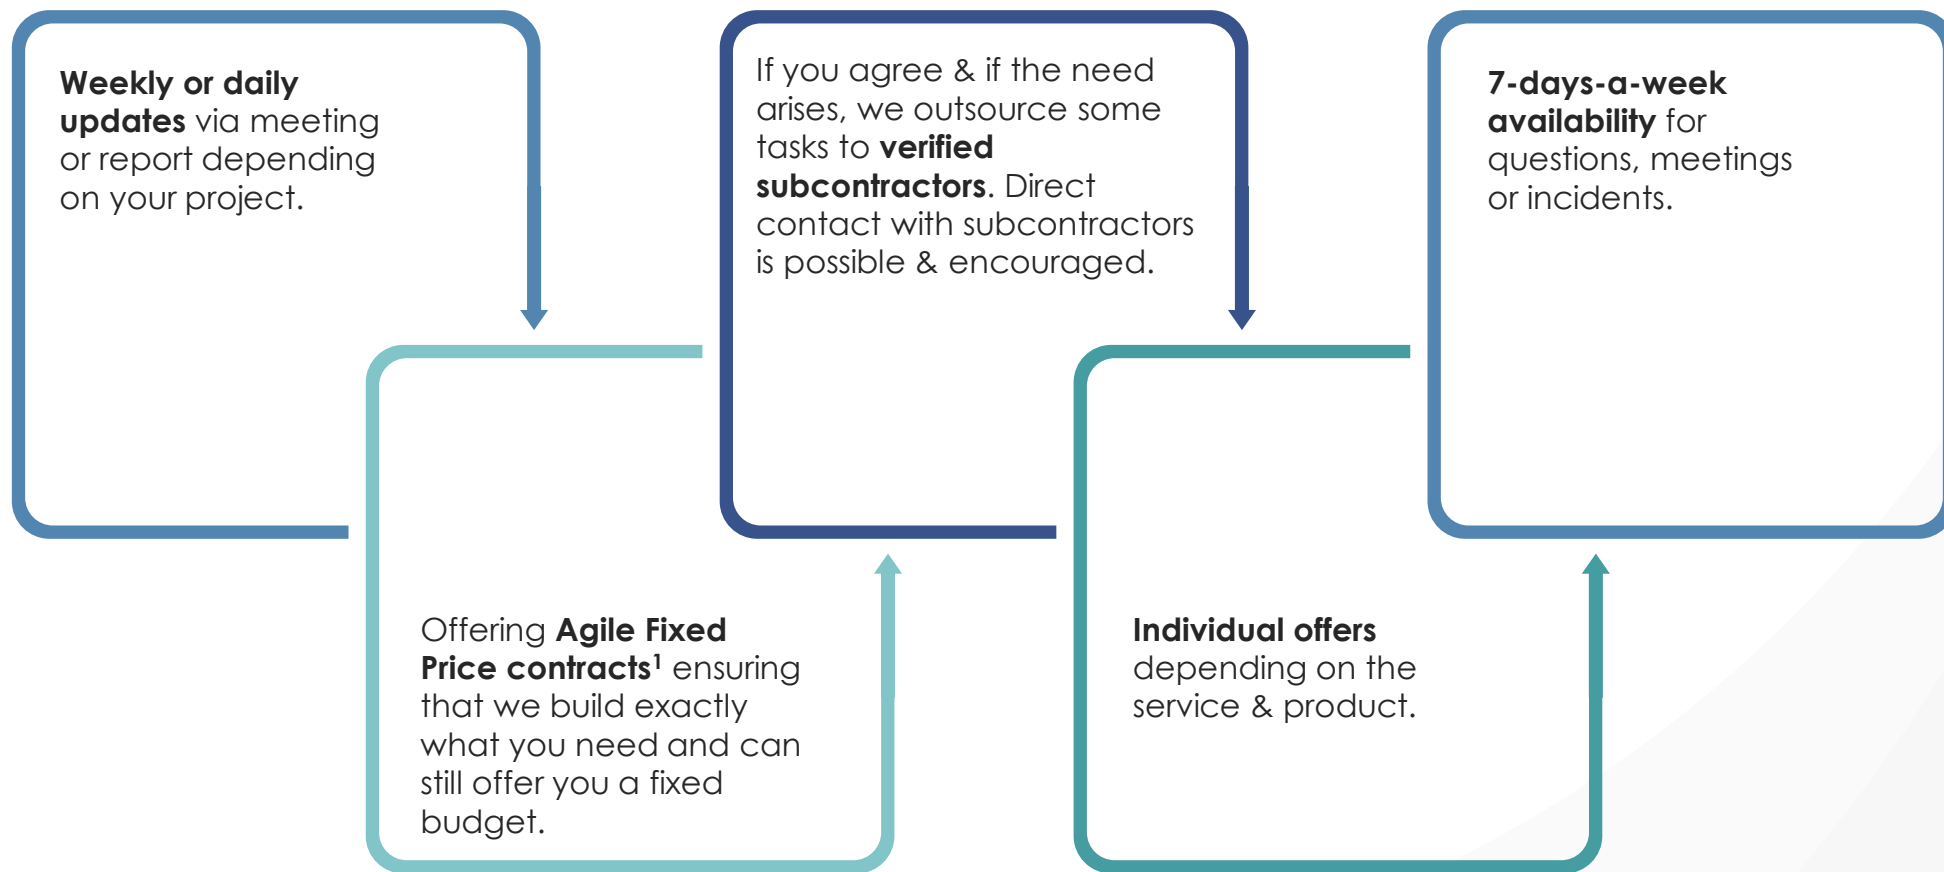

Customer centricity: **highly maintainable & sophisticated software**

Purpose-driven organization: some companies change the world forever, let's make you one of them. **Be 2 steps ahead of your competition.**

HOW DO WE WORK?

¹ <https://kruschecompany.com/fixed-price-agile/>

PRICING

Pricing is as flexible as we are and individual for every product.

Hourly rates
(e.g. 110 € / hour)

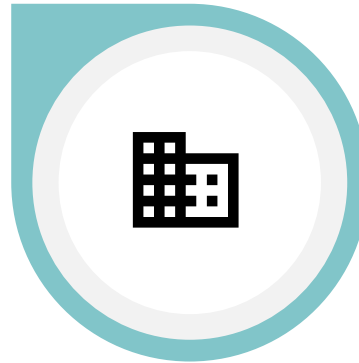

Flat rates
(e.g. 1.500 € / day)

Commission basis or Code4Equity
(e.g. 12 % net profit of new products)

Agile Fixed Pricing¹
(~ working with User Stories, StoryPoints and a fixed pricing range).
